

Bluetrek Mini+ : Perfect companion for smartphone users

NEWS RELEASE – 2 July, 2013

BLUETREK TECHNOLOGIES LTD is pleased to announce the launch today of **Bluetrek™ Mini+** — the compact headset for smartphones and tablet device users.

The Mini+ is a Bluetooth 3.0 enabled headset for ultra-fast and stable connection with no latency. *Bluetooth* support for A2D Profile allows for the streaming of audio data and multimedia content from mobile devices. It is also compatible with VoIP and Apps such as Facetime and Skype.

The compact battery is designed especially for long conversation and music streaming to allow for up to 7 hours' talk time or up to 5.5 hours of audio data streaming on a single charge.

"This highly competitively priced compact headset comes with built-in noise cancellation that will enable you to hold crystal-clear conversations. Even on busy public transport, you don't have to crank up the volume to compensate for background noise. It allows you to listen music at lower levels to reduce ear fatigue," CEO, **Henri-Nicolas OLIVIER** said.

In addition to the **Mini+**, **Bluetrek**'s growing range of headsets include its bestsellers Titanium+, Carbon Smart, Crystal, MusiCall™, Tattoo+ and other models to suit various lifestyles and uses.
